

# FROM INSIGHT TO ACTION

## The 90-Day Business Reset

### Busy, but not seeing the sales you expected?

If you're running an existing business and want clearer sales focus, stronger direction, and momentum – this programme is for you.

### What is it

From Insight to Action is a practical, one-day reset for existing businesses (not side hustles).

You'll step back from the day-to-day, identify what's not working, and design a clear 90-day action plan focused on sales, customers, and delivery.

Up to 70% co-funded through RBPN for approved businesses.

### Why this matters

Many business owners tell us they are:

- Working hard, but revenue isn't growing as expected
- Unsure which sales channels are worth the effort
- Doing too much without clear progress
- No clear plan for the next 3 months

This programme turns frustration into **clear priorities and actions**.

### What you'll do

- Get a clear picture of how your business really works
- Identify what to fix, strengthen or stop
- Use AI-assisted insight (with human guidance) to sharpen focus
- **Design a clear 90-day action plan**

### What you'll walk away with

- Clear priorities
- 2-3 immediate actions that can lift revenue and stability
- Confidence about where to focus next
- Momentum to act

### Who it's for

- Existing small businesses trading now
- Sole traders and SMEs approved for RBPN support
